DETAILED ACTION

DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-4, 6, 8-11, 13-19 and 23-31, drawn to a projection display system, classified in class 349, subclass 8.
- II. Claims 32-34, 36-40 and 42-43 drawn to a method of displaying an image, classified in class 359, subclass 478.

The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)).

In the instant case (2), the projection display system may be made without mismatching of the polarization states.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
